DISCLAIMER:

By signing this form, the District Manager has approved the contents thereof as to form only. Said District Manager does not warrant that the facts provided by the operator are true or that the above described operator has properly plugged the above-described well.

INSTRUCTIONS:

1. Form must be completely filled out and sent to district office within within 30 days after plugging is completed.
Send original and one copy.
Type or use black ink.
API number of well is important and is used to match this report to the completion report.
2. Cementing Company and Operator shall comply with the applicable portions of O.C.C. Rules 3-404 and 3-405.
3. A. In specifying the type of plug use the following notation:
CIBP - cast iron bridge plug.
CEM - cement plug.
CIBP + CEM - cast iron bridge plug and cement.
Packer - packer.
If other abbreviations are used, please define.
B. Cement plugs shall be placed in the well bore as required by Rules and Regulations of the Commission plus any additional plugs as may be specified by the District Manager or his representative, where unusual local conditions exist. (Rule 3-404 f and g).
C. The minimum amount of cement normally used in each plug in the open hole shall be a slurry volume equal to the amount necessary to fill the calculated volume of 100 feet of the hole in which the plug is placed.
D. A 30 feet cement plug is required to be placed near the top of the well. (Rule 3-404-g).
4. If you have questions concerning the completion of this form, call the appropriate District Office.

For Commission Use Only -- Do Not Write Below This Line
